Principles of remuneration - Audited

The Directors present their Remuneration Report for Buru Energy for the year ended 31 December 2020. This remuneration report outlines the remuneration arrangements of the Company's Directors and other key management personnel (KMP) in accordance with the requirements of the *Corporations Act 2001* and its Regulations. In accordance with section 308(3C) of the *Corporations Act 2001*, the Remuneration Report has been audited and forms part of the Directors' Report.

KMP have the authority and responsibility for planning, directing and controlling the activities of the Group and comprise the Directors, executives and senior management in accordance with s300A of the *Corporations Act 2001*.

Remuneration levels for KMP are competitively set to attract and retain appropriately qualified and experienced Directors and executives. The remuneration structures explained below are designed to reward the achievement of the Company's strategic objectives and achieve the broader outcome of the creation of shareholder value. The Company's remuneration structures take into account:

- the capability and experience of KMP; and
- the Group's corporate, operational and financial performance.

Remuneration packages include a mix of fixed and variable remuneration, and short and long term performance based incentives.

Fixed remuneration

Fixed remuneration consists of base remuneration (which is calculated on a total cost basis and includes any FBT charges related to employee benefits), as well as employer contributions to superannuation funds. Remuneration levels are reviewed annually by the Remuneration and Nomination Committee through a process that considers individual, segment and overall performance of the Group. In addition, external consultants may provide analysis and advice to ensure the Directors, executive and senior management remuneration is competitive in the market place. Remuneration is also reviewed on promotion.

Performance linked remuneration

Performance linked remuneration includes both short term and long term incentives, and is designed to reward KMP for meeting or exceeding the Company's expectations and agreed objectives. Any short term incentive (STI) is an 'at risk' bonus provided in the form of cash, while any long term incentive (LTI) is provided under the Employee Share Option Plan (ESOP). The LTIs are structured to ensure that incentives are appropriately aligned to sustainable shareholder value creation.

Short term incentive bonuses

The payments of any STI bonuses are linked to the fulfilment of key performance indicators (KPIs). The KPIs are designed to promote shareholder value creation and include financial and non-financial measures. The financial and non-financial KPIs include base and stretch targets related to health and safety results, production levels, exploration outcomes and share price appreciation. All STI bonuses are subject to Board approval.

Long-term incentive bonuses

The Remuneration and Nomination Committee considers that an LTI scheme structured around equity-based remuneration is necessary to attract and retain the highest calibre of professionals to the Group, whilst preserving the Group's cash reserves. The purpose of these schemes is to align the interests of KMP with shareholders and to reward, over the medium term, KMP for delivering value to shareholders through share price appreciation.

Options are issued under the ESOP in accordance with the thresholds set in the plan approved by shareholders. The number of options available to be issued under the ESOP is limited to 5% of the total number of ordinary shares in the Company. The options are issued for no consideration and vest immediately. All options refer to options over ordinary shares of Buru Energy Limited which are exercisable on a one for one basis.

Consequences of performance on shareholder wealth

The Board considers that the most effective way to increase shareholder wealth is through the successful exploration and development of the Group's oil and gas exploration permits and increasing production at the Group's production licenses. The Board considers that the Group's LTI schemes incentivise KMP to achieve these outcomes by providing rewards, over the short and long term that are directly correlated to delivering value to shareholders through share price appreciation. The Company's relative share price performance is the primary measure when the Board considers the effectiveness of STI and LTI remuneration consequences on shareholder wealth.

Service contracts

The employment contract with the Executive Chairman, Mr Eric Streitberg, is unlimited in term but capable of termination with three months' notice by either party, or by payment in lieu thereof at the discretion of the Company.

Service contracts with all other current non-Director KMP are unlimited in term but capable of termination on three months' notice by either party, or by payment in lieu thereof at the discretion of the Company.

The Remuneration & Nomination Committee determined the amount of remuneration payable to KMP under each agreement. KMP are also entitled to receive their contractual and statutory entitlements including accrued annual and long service leave, together with any superannuation benefits, on termination of employment. Remuneration levels are reviewed each year to take into account cost-of-living changes, any change in the scope of the role performed by KMP and any changes required to meet the principles of the Group's remuneration policy.

Services from remuneration consultants

There were no services received from remuneration consultants during the period.

Non-executive Directors

Total fixed remuneration for all Non-executive Directors, last voted upon by shareholders at the 2012 Annual General Meeting, is not to exceed \$600,000 per annum. The Non-executive Directors' base fee is \$96,000 plus statutory superannuation per annum. The Chairman's base fee is ordinarily \$150,000 plus statutory superannuation per annum, however the current Chairman, Mr Streitberg, is not eligible for this remuneration as he is not acting in a non-executive capacity. An additional fee of \$7,400 plus statutory superannuation per annum is payable for Non-executive Directors being a member of a Committee and the fee for chairing a Committee is \$14,600 plus statutory superannuation.

During the year, in response to the pandemic crisis, the collapse in the price of oil, and the loss of stock market value, the fees paid to the Non-executive Directors were reduced to 60% of prior levels, and the Executive Chairman's salary was reduced to 45% of prior levels from 1 April. In light of the recovery in the sector and the high level of corporate activity towards the last quarter of the year, the Non-executive Directors remuneration was restored to prior levels from October 2020 and the Executive Chairman's salary was adjusted to 80% of prior levels from 1 September 2020.
