Principal Activities

The principal activity of the Group during the period was oil and gas exploration and production in the Canning Basin, in the northwest of Western Australia. The Group has also been progressing a number of initiatives to ensure it is part of the energy transition both through both internal Buru activity and through three subsidiaries, 2H Resources (natural hydrogen), Geovault (Carbon Capture and Storage) and Battmin (battery minerals). Further information is included in the Review of Operations. There were no other significant changes in the nature of the Group's principal activities during the period.

Review of Operations

The Review of Operations for the year ended 31 December 2021 is set out on pages 3 to 10 and forms part of this Directors' Report.

Operating Results

The consolidated loss of the Group after providing for income tax for the year ended 31 December 2021 was \$10,751,000 (31 December 2020: loss of \$28,823,000).

Financial Position

The net assets of the Group totalled \$43,453,000 as at 31 December 2021 (31 December 2020: \$38,605,000).

Dividends

The Directors do not propose to recommend the payment of a dividend for the period. No dividends have been paid or declared by the Company during the current period.

Significant Changes in the State of Affairs

No significant change in the state of affairs of the Group occurred during the period other than already referred to elsewhere in this report.

After Balance Date Events

Impairment recorded subsequent to the end of the reporting period.

The Ungani 8 well was spudded on 18 December. During January, the well was drilled to a total measured depth of 2,605 metres into the Ungani Dolomite at a hole angle of some 76 degrees, substantially as planned. As the drill string was being retrieved prior to running the 9 $\frac{5}{8}$ inch casing it became stuck in the upper part of the Laurel Shale. Despite extensive efforts to recover the drill string it was unable to be freed. It was subsequently backed off at a depth of 2,206 metres measured depth and the remaining drill string was retrieved. Subsequent to analysis of the options for the forward program for the well it was agreed that ROC would undertake a sidetrack to complete the well as a sole risk operation. The Ungani 8 sidetrack was drilled to a measured depth of 2,473 metres in the Ungani Shale, with a further incident of stuck pipe and the well was suspended. All costs incurred undertaking the sidetrack were borne by ROC.

A non-cash impairment of \$8,031,000 was recorded after the end of the reporting period being Buru's share of costs associated with the Ungani 8 well incurred and capitalised as Oil and Gas Assets, including \$4,219,000 that had been incurred and capitalised as of 31 December 2021.

No other significant events have occurred subsequent to balance date that in the opinion of the directors has significantly affected, or may significantly affect in future financial years:

- ◆ The Group's operations; or
- ◆ The results of those operations; or
- ◆ The Group's state of affairs.

Likely Developments

The Group's likely developments in its operations in future financial years and the expected results of those operations have been included generally in the Review of Operations. Other than as disclosed elsewhere, disclosure of information regarding likely developments in the operations of the consolidated entity in future financial years and the expected results of those operations is likely to result in unreasonable prejudice to the Group. Accordingly, this information has not been disclosed.

DIRECTORS' REPORT

Environmental Regulations

Buru Energy is subject to environmental regulation under relevant Australian and Western Australian legislation in relation to its oil and gas exploration and production activities. DMIRS is the primary regulator in Western Australia for petroleum activities though the Group's activities are also regulated by DWER. The Directors actively monitor compliance with these regulations. As at the date of this report, the Directors are not aware of any material breaches in respect of the regulations.
